

Logic Model: oRISKany Beyond the Box 4/25/16

Problem Statement: There is a need to create a learning environment where all learners are engaged and given opportunities to participate in innovative thinking that will prepare them for an ever-changing world

Goal: To create an environment that fosters innovative thinking.

Rationale:

(Further discussion needed)

To develop a plan for becoming a school of innovation.

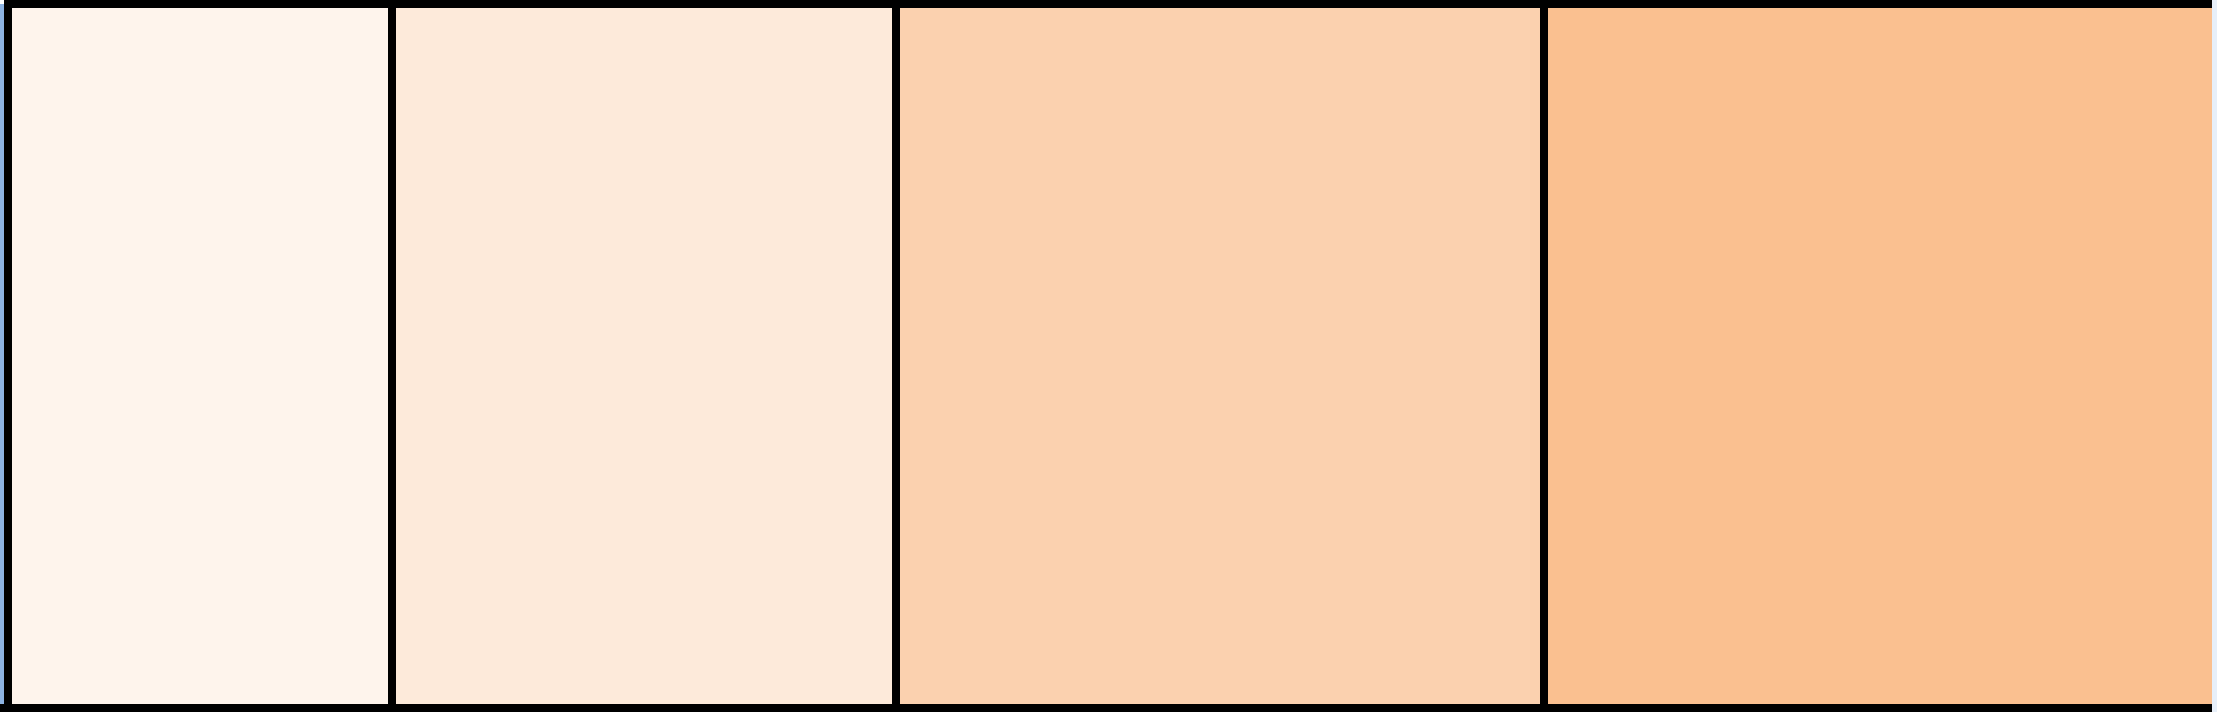

To draw a plan of how to create a innovative district.

To create a logic model to foster innovative thinking on teachers, students, and community.
